**LETTER**

Dear Sir:

A notice dated February 16, 2006, was received from the U.S. Patent Office (copy attached as Exhibit A) advising that an Information Disclosure Statement ("IDS") filed May 26, 1995, was incorrectly entered into the file for the above-identified application number as it refers to U.S. application serial number 08/154,313 (parent application that issued as Patent No. 5,495,284). The Examiner and the Patent Office have disregarded page 2 of the PTO-1449 forms attached to the IDS, simply based on the application serial number indicated on page 2. However, the undersigned notes that the IDS itself and attached page 1 of the PTO -1449 forms indicate the application serial number for this case (08/407,064). The serial number indicated on page 2 is clearly a result of an inadvertent clerical error. For the record, the undersigned further

## CERTIFICATE OF MAILING UNDER 37 CFR 1.8

I hereby certify that this document (along with any referred to as being attached or enclosed) is being facsimile transmitted to the United States Patent and Trademark Office (fax no.: (571) 273-8300) on the date shown below:

March 6, 2006  
Date

/Reena Kuyper  
Reena Kuyper

Page 1 of 2

Application No.: 08/407,064

notes that the Examiner did originally consider page 2 (as evidenced by her initials) but appears to have later withdrawn that consideration only upon noting the serial number indicated on that page. Page 2 of the PTO-1449 form is re-submitted with the same serial number as that indicated on page 1. As the application is now in the issue process, the undersigned requests the Patent Office to ensure that the face page of the patent that ultimately issues in due course will reflect the references indicated on page 2, that were originally considered in the parent application and this one, as evidenced by the Examiner's initials, but subsequently crossed off due to an inadvertent indication of the serial number of the parent application that stands issued.

Respectfully submitted,

Dated: March 6, 2006
